PAGE

Sato, T., Wada, Y. and **Maebashi, M.** Simultaneous Determination of Urinary Vanillylmandelic Acid and 5-Hydroxyindoleacetic Acid 1

Ebe, M., Mikami, T. and **Ito, H.** Cortical Evoked Potentials by Photic Stimulation at Various Adaptation Levels of Retina in Man 9

Sato, T., Kakizaki, G., Saito, Y. and **Seki, K.** Studies on Banti's Syndrome
I. Mortality and Survival after Splenectomy 18

Yosizawa, Z. Deamination of the Partially N-Deacetylated Acid Mucopolysaccharides 26

Yoshinaga, K., Aida, M., Maebashi, M., Sato, T., Abe, K. and **Miwa, I.** Assay of Renin in Peripheral Blood
A Modification of Helmer's Method for the Estimation of Circulating Renin 32

Itō, M. Characterization of the Proteases Obtained from Streptomyces Cultures
I. Biological Properties of Five Preparations Found as Cytotoxic Principle 42

Tsuchida, S., Ogoe, T., Kurosaka, M., Watanabe, M., Mizuno, S. and **Takaoka, R.** Clinical Studies on Renal Tuberculosis Complicating Bone-joint Tuberculosis 55

Tasaki, K., Norton, A.C., Fukada, Y. and **Motokawa, K.** Further Studies on the Dual Nature of the Octopus ERG 75

Namiki, T. Histopathological Studies on Radiation Pneumonitis 89

Vol. 80, No. 2, July 25, 1963

Miura, T. Morphological Observations of the Influence of Some Chemical Drugs on the Growth of Dermatophytes at Concentrations Directly Below the Minimal Inhibitory Concentration 103

Tada, K., Ito, H., Wada, Y. and **Arakawa, T.** Congenital Tryptophanuria with Dwarfism
("H" Disease-like Clinical Features without Indicanuria and Generalized Aminoaciduria) : —— A Probably New Inborn Error of Tryptophan Metabolism 118

Kojima, M. and **Amada, M.** The Origin of the Epitheloid Cell in Tuberculous Lesions 135

Saito, A. On the Essential Nature of the Hematopoietic Function of Bone Marrow

Report 14. Observations on the Appearance of Clinical Symptoms from the Standpoint of Hematopoietic Phases of the Bone Marrow and the Fields of Blood Defense Reaction, with Special Reference to the Relationship Between the Defense and Accommodation Mechanisms 148

Kuroyanagi, T. and **Saito, M.** Proliferative Capacity of Leukemic Cells Studied with Tritiated Thymidine in Vitro 168

Matsushiro, T. Inhibitory Effect of Bile Constituents upon Bacterial β-Glucuronidase Activity

I. Effect of Normal Bile 175

Ohyama, S. The Response of Arterial Muscular Coat to Elevated Blood Pressure

Histometrical Studies of Renal Artery in Experimental Hypertension of Rats 182

Vol. 80, No. 3, August 25, 1963

Ishida, H. Studies on the Feto-maternal Metabolism of Urea 205

Tada, K., Yoshida, T., Morikawa, T., Minakawa, A., Wada, Y., Ando, T. and **Shimura, K.** Idiopathic Hyperglycinemia (The First Case in Japan) 218

Itō, M., Toriyama, K., Chiyo, O. and **Yamaguchi, T.** Characterization of Proteases Obtained from Streptomyces Cultures

II. Distribution of Streptomyces Proteases Assayed by the Diffusion Method on Gelatin and Casein Plates 227

Sato, T., Koseki, K., Watanabe, K. and **Miya, M.** Studies on Banti's Syndrome

II. Effect of Splenectomy on Hematology 237

Sato. T., Watanabe, K., Miya, M. and **Ottomo, M.** Studies on Banti's Syndrome

III. Effect of Splenectomy on Increased Portal Pressure and Its Manifestations 254

Saito, A. On the Essential Nature of the Hematopoietic Function of Bone Marrow

Report 15. Causative Treatment of Infectious Diseases from the Standpoint of the Hematopoietic Phases of the Bone Marrow and the Fields of Blood Defense Reaction..... 268

Oberholzer, R.J.H. Afferent Fibers of Cardiovascular and Pulmonary Origins and Their Intrabulbar Connections (A Review) 288

Vol. 80, No. 4, September 25, 1963

Maki, M. and **Nagasawa, K.** Pathophysiology of Plasmin System
VI. Some Evidence Suggesting an Entity of Enzyme Multiplicity in the Euglobulin Fraction 315

Ebe, M., Mikami, T., Ito, H., Aki, M. and **Miyazaki, M.** Photically Evoked Potentials (PEPs) in Brain Disorders 323

Arakawa, T., Wada, Y., Tada, K. and **Ito, H.** Hyperpigmentation of the Skin with DOPA-uria of a Newborn
(A Peculiar Sign of an Infant Born of a Thyrotoxic Mother Treated with Methimazol) 329

Nakamura, T., Katori, R. and **Watanabe, T.** The Validity of a Photoconductive-cell Densitometer for Recording Dye Dilution Curves 338

Watanabe, T., Katori, R., Murai, M., Watanabe, T. and **Oda, J.** Effects of Intravenous C on the Pulmonary Circulation in Patients with Pulmonary Hypertension 346

Majima, S., Yoshida, K., Teshima, T. and **Karube, K.** Histopathological Study on Gastric Polyps and Their Malignant Degeneration. 355

Arakawa, T., Ohara, K., Kudo, Z., Tada, K., Hayashi, T. and **Mizuno, T.** "Hyperfolic-acidemia with Formiminoglutamic-aciduria Following Histidine Loading"
Suggested for a Case of Congenital Deficiency in Formiminotransferase 370

Ito, K. Discrepancy between Renal Plasma Flow Values Determined Simultaneously from PAH and Thiosulfate by the Fick Method and Its Significance for Renal Lymph 383
